Symptom

List of GST Suvidha Providers (GSPs) working with SAP Integration and Certification Center (ICC) for eWay Bill Solution integration certification.

The Government of India has mandated the generation of the e-Way bill, under the Goods and Services Tax (GST) regime, from 1st April 2018.

The e-Way bill is an electronically generated document which is required for the movement of goods of value more than INR 50000, from one location to another. This document is generated online on the National Informatics Centre (NIC) portal for transportation of goods, both inter and intra state and includes details such as name of consignor, consignee, point of origin of consignment, consignment destination and route. E-way bill is an electronic document generated on the National Informatics Centre (NIC) portal evidencing movement of goods.

This replaces the Way bill which was earlier required under the VAT regime.

Other Terms

e-Way Bill India, eWay Bill, GST, Goods and Service Tax, edocuments India

Reason and Prerequisites

-- Information only --

We recommend that you only use certified GSP applications in production environments.

Solution

The communication between SAP ECC/eDocuments and GSP is possible only by building the integration flow on SAP Cloud Platform Integration Service.

The focus of this certification is to test the integration content flow to ensure the seamless integration between eDocuments and GSP. ICC will certify the integration content flow and GSP can publish the integration flow on SAP content catalog to smoothen the customer landscape setup.
